

BUILDING for TOMORROW **CHRIST CHURCH EASTON**

Serving the Community for Over 260 Years

We urgently seek your assistance in raising \$100,000 to cover the costs of much needed capital improvements, including:

- Repair existing water lines so that the tap water is safe to drink.
- Replace the church's large glass window and wood framing which is no longer watertight.
- Install a new septic system to replace the old system that no longer meets the needs of the church and the Nursery School located in the basement.

BUILDING FOR TOMORROW

Donations are tax-deductible, and can be made securely by scanning the QR code or visiting the church website indicated below.
